2. The following is the list of the names of Typewriters recognised for use in the examinations :—

C. Smith & Bros. machine.

NOTE.—Only one particular kind of machine should be used by the candidates throughout the examinations.

3. Seats and accommodation for the candidates :—

(*a*) Candidates will be permitted to bring with them for their use at the examination hall, their own tables, chairs or stools, if they choose ; provided they take care to see that, by so doing, they do not give room to the slightest disturbance being caused in the examination hall.

(*b*) The candidates will be allowed to take their seats in the examination hall five minutes before the appointed hour for the giving out the question paper and supplied with the necessary paper for answering and get their machines ready for work with paper inserted in them and to have their Register numbers at the left hand corner of their answer paper and the particular kind of Typewriter they use at the right hand corner, typed before the question paper is given to them.

4 Candidates are strictly told not to write anything on the question paper itself. Calculations or any other points they wish to note must be written on one of the blank sheets supplied to them and such sheets including the carbon papers should be left on the table.

5. The candidates will, if necessary, be examined in *batches*, but at least every *four* candidates for the Lower grade, at least every *two* candidates for the Higher grade, must have one machine among them.

6. Managers and Instructors of institutions concerned are expected to see that their pupils are supplied with Typewriting machines in proper working order.

7. Managers and instructors will be allowed into the examination hall in the intervals between the various batches to inspect the machines and to remedy any defects. They should take care to see that they do not remain in the examination hall while the question paper is being distributed to the candidates in the examination hall or while their pupils are answering the question papers.

8. If, however, a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will intimate this to the manager or instructor, if he is waiting outside on the premises, and will permit such manager or instructor to enter the hall (though the candidates may be at work) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent incurs no responsibility in this matter ; his action will be purely *ex gratia*, the whole responsibility resting on the candidate and the manager or instructor.

A similar concession will be allowed in the case of a private candidate, if he has someone outside who is willing to inspect the machine and put it right, etc.

No extra time will be given to candidates to compensate for loss of time while the machine is out of order and being put right.

In the Mufassal.

Heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined should make the necessary arrangements with the Chief Superintendent concerned two days before the examination and furnish him with all the necessary information as to the number of candidates and machines and the time at which each batch will attend on the day fixed for the examination.

At Madras.

Lower Grade—Candidate's Hall Ticket.—Tickets of admission specifying the particular batch (first or second and so forth) in which the candidates elect to appear will be issued on Thursday, the 24th April between 11 a.m. and 5 p.m. at the Office of the Commissioner for Government Examinations, Old College, Nungambakkam. These tickets should be shown at the entrance to the examination hall. Candidates who produce tickets will be admitted to the batch specified in the tickets. Candidates who do not provide themselves with tickets cannot claim to be admitted to any particular batch. They will be admitted only, if spare seats are available in the hall, i.e., after seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance to the examination hall from the hour of commencement of the first batch and take their chance of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined are particularly requested to call at the office on Thursday the 24th April with all the necessary information as to the number and name of candidates that will attend at the particular batch on the day fixed for the examination and obtain tickets of admission accordingly. *No tickets can on any account be sent by post whether to heads of institutions or to private candidates.*

Candidates that have each a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the Lower grade. But this does not preclude them from registering their names for that batch and obtaining tickets accordingly.

Candidates for the *Higher grade* may appear for the first or second batch at their option and no tickets accordingly are issued for this grade.

Instructor's Hall Ticket.—Managers or Instructors of institutions and other persons who wish to be allowed into the examination hall in the intervals between the examinations of the various batches to inspect the machines and remedy any defects, are requested to call at the office on Thursday, the 24th April and have their names registered. Tickets of admission specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

IV.—REGULATIONS TO BE OBSERVED BY THE CANDIDATES.

Both at Madras and in the Mofussil.

Attention is particularly drawn to the following rules :—

1. No candidate will be allowed to enter the examination hall unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination hall.

2. Candidates are expected to take their seats in the examination hall at least five minutes before the time fixed for giving out the question papers. No candidate will be allowed to quit the examination hall on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that half hour will not be admitted.

3. No candidate will be allowed to re-enter the examination hall during the hours of examination after once quitting it, nor to leave the hall without finally giving up his answer papers.

4. Strict silence should be maintained in the examination hall

5. *No candidate will, on any account, be allowed to take into the examination hall, slates, books, or portion of a book, ruled sheets, manuscripts or papers of any kind.* Any candidate detected in the violation of this rule or detected in speaking to, or in any way communicating with or copying from each other and in communicating with any other person outside the examination hall or having recourse to any unfair practices will be sent out of the hall forthwith, and his conduct reported to the Commissioner for disciplinary action. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

6. Candidates are forbidden to note down the answer to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination hall.

7. Candidates are forbidden to tear up paper, or to throw ink or papers on the floor. All 'spoilt' copies, etc., should be left on the desk where the candidate has been writing.

8. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examinations.

9. No candidate will be allowed to exceed the time assigned to each paper.

10. As soon as candidates have finished writing their answers and wish to give up their answer papers, or at the end of the period prescribed for each particular part of the examination, each should rise from his seat and remain standing until one of the Superintendents has gone up to him and has received his answer paper from him. Any candidate wishing to ask any question of the Superintendent will pursue the same course but will on no account leave his seat.

11. Candidates whose names are not in the printed list furnished to the Chief Superintendent must submit a written declaration through the Chief Superintendent giving full particulars in regard to themselves *including their address*, and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be valued unless it is clear that the omission of their names is due to no fault of theirs.

12. Candidates are requested to note carefully the particulars printed in the nominal list and satisfy themselves whether they tally with those as given by them in their applications for admission to the examinations, so that any alteration with regard to their initials, name or class of community or any other correction that may appear necessary might be pointed out by them in writing to the Chief Superintendent.

13. Candidates choosing to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the memorandum or letter permitting the change should be produced for the satisfaction of the Superintendents.

14. The answer papers should be stitched or pinned together at the upper left hand corner, and the whole folded into *two*: lengthwise (not crosswise into four). The register number, the place of examination and also (in the case of the examinations in Shorthand, the particular system adopted) and (in the case of the examinations in Typewriting, the name and number of the Typewriter used) should be written out clearly by the candidates on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

[*N.B.*—(1) Candidates should distinctly understand that failure to furnish these particulars may involve the rejection of valuing their answer papers.

(2) Candidates are strictly forbidden to write or type their names on the answer papers.]

15. Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examinations or is suspected of having had recourse to malpractice of any kind is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, *if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of his results*, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination

16. Candidates are forbidden to communicate with the examiners; should they do so, their answer papers will not be valued and further their conduct will be reported to the Commissioner for any action that he may deem fit.

17. No information can be furnished in regard to the results of a candidate in any subject or in regard to the marks obtained by him or in regard to the particular section or subdivision in which he may have failed. The names of successful candidates in each subject arranged in two classes, first and second, will be published in the *Fort St. George Gazette*. The pass-list for each grade of a subject as published in the Gazette is complete and final. II. THE SANKARA PARVATHY PRIZE, 1931.

1. The prize for the year 1931, which may be in the form of money or books and may amount to about Rs. 350, will be awarded by the Syndicate for the best essay or thesis on any topic connected with the Ancient Indian History by Graduates of the University of Madras. The Syndicate may grant a part only of the prize for a thesis not deemed worth of receiving the whole prize, or may decline to award the prize on the ground of insufficient merit in the thesis submitted. When two or more essays or theses are considered to be of equal merit, the prize will be divided among the authors.

2. All theses or essays should reach the Registrar before the end of February 1931.

3. The essay or thesis should be an original work done by the candidate. The candidate shall indicate, by means of footnote, the sources from which his information is taken, the extent to which he has availed himself of the work of others, the date or bases of his inference or theories, and the portion of his thesis which he claims as original. He shall further state whether the research has been conducted independently, under any advice or co-operation with others, and in what respects his investigations appear to him to advance the study and knowledge of Ancient Indian History.

4. All essays and theses for University prizes shall be forwarded to the Registrar by the prescribed date by registered post. No essay or thesis shall bear upon it the name of the competitor or anything whereby his identity can be ascertained by the persons to whom it is to be submitted for examination. Each essay or thesis for a University prize shall be headed by a motto or a *nom-de-plume* selected by the competitor and shall be accompanied by a sealed cover bearing on the outside the name of the prize and the competitor's motto or *nom-de-plume* and containing his name, designation and address and a signed declaration that the essay or thesis has been prepared solely for the purpose of competing for the prize and has not in any manner been previously published. Essays or theses may be printed, typewritten, lithographed or written (but not in the competitor's own hand).

5. The successful thesis will, under the terms of award of the endowment, be published by the University, the exact mode of publication being determined by the Syndicate.

III. THE GOKHALE PRIZE, 1931.

1. This prize will be awarded for the best essay or thesis written on any topic connected with Indian Economics by Graduates in Arts of the University of not more than five years' standing who have been born and are resident within the territorial limits of the University.

2. The value of the prize is at present Rs. 500. The prize will be awarded in 1931 and essays therefor should be submitted to the Registrar before the end of February 1931.

3. The essay or thesis submitted should have been prepared solely for the purpose of competing for the prize and should not have been published in any manner previous to submission. Each competitor for the prize must forward with his essay or thesis a declaration that the above conditions have been observed.

4. While competitors for the prize have unrestricted choice of subject within the limit of Indian Economics, the following suggestions (section 5) on suitable topics and the methods of presentation are offered for their guidance.

5. The economics of a particular industry in a particular locality—

(i) A candidate taking this subject should confine himself mainly to a locality so limited that he can become personally acquainted with the whole of it, though illustrations of particular points drawn from published reports relating to other localities may well be used. The candidate should investigate family budgets and working conditions of typical families and endeavour to throw light upon the recent history and prospects of the industry and of those engaged in it.

(ii) The economic conditions of a particular agricultural district, either with special reference to some agricultural problem of general importance (e.g., Fragmentation and Excessive Subdivision of Holdings) or with reference to some important local problem such as that of house-sites for Adi-Dravidas in the Tanjore delta, or the Advantages and Disadvantages of Marumakkattayam on the West Coast.

(iii) The economic conditions and problems of some particular caste or defined body of workers in either an urban or rural area, the object aimed at being an investigation similar to that of Mr. Arthur Davies into Anglo-Indian families in Madras, or that of Doctor Harold Mann into Untouchables in the villages near Poona.

Competitors are not excluded from the choice of other subjects but should select only such as are of sufficiently manageable dimensions as to permit of the production of essays and theses of possible value.

Competitors are warned that essays and theses which do not *either* contain new facts or new interpretations of previously known facts, or present such regroupings of facts and ideas as make clearer than before some point of economic interest will not be considered of merit sufficient to justify the prize.

6. All essays and theses for University prizes shall be forwarded to the Registrar by the prescribed date by registered post. No essay or thesis shall bear upon it the name of the competitor or anything

whereby his identity can be ascertained by the persons to whom it is to be submitted for examination. Each essay or thesis for a University prize shall be headed by a motto or a *nom-de-plume* selected by the competitor and shall be accompanied by a sealed cover bearing on the outside the competitor's motto or *nom-de-plume* and containing his name, designation and address and a signed declaration that the essay or thesis has been prepared solely for the purpose of competing for the prize and has not in any manner been previously published. Essays or theses may be printed, type-written, lithographed or written (but not in the competitor's own hand).

GINGELLY CROP OF 1929-30.

[On an average of the five years ending 1927-28, the area under gingelly in the Madras Presidency has represented 12·8 per cent of the total area under gingelly in India.]

The area sown with gingelly in 1929-30 is estimated at 769,200 acres as against the estimate of 752,400 acres made on the same date last year and the actually recorded area of 769,718 acres last year. The estimate this year is about 1·3 per cent above last year's actuals. The area in an average year is estimated at 778,030 acres.

2. 230,700 have been reported as sown since the date of the previous forecast report issued in January. These late sowings were mainly on wet lands in the Circars, Carnatic, and the South where gingelly was raised as a second crop after paddy.

3. There has been a decrease of 21,900 acres in the Deccan due to insufficient rains. But there has been an increase of 38,100 acres in the central districts where the sowing rains were favourable.

4. The yield was normal or slightly above normal except in Kistna, the Deccan and the Carnatic districts, Chittoor, North Arcot, and Trichinopoly. The condition of the late sown crop is generally fair.

The seasonal factor for the Presidency works out to 98 per cent of the average as against 96 per cent in the previous year. On this basis, the crop is estimated at 101,900 tons as against 98,710 tons in the previous year and an average yield of 104,150 tons.
